The project

Digital pedagogy defines the use of online and electronic tools to enhance education and it can be applied in all possible topics.

The Digital Pedagogy Cookbook will provide a comprehensive and practice driven guide of recipes for educators and trainers, by applying the cooking and **recipe metaphor** in digital pedagogy.

On 15th and 16th November 2018 the **kick-off meeting** took place in Athens, hosted by the lead partner Active Citizens Partnership.

The **2nd partner meeting** is scheduled for 22nd – 24th May in Innsbruck (Austria) and it will be hosted by the partner Verein Multikulturell.

TOOLKIT FOR EDUCATORS: The first Intellectual Output

We are right now finalising the **Toolkit for Educators** (Intellectual Output 1), which is a guide for applying digital pedagogy using the recipes metaphor. The chapters contained in the Toolkit have been worked on, The Toolkit will be tested in July 2019, during our first joint staff training event in Berlin with trainers.

It will be published as .pdf file in **all the partners' languages**, and it will also be available online.
